

The ACKU Long Term Research Room is an invaluable resource with 18 computer stations connected to the ACKU catalogue and internet databases with a fast internet connection. Researchers engaged on research projects wishing to access our resources should write to communications@acku.edu.af with a brief outline of their project and confirmation from their University/Research Institute. We ask that those scholars using our facilities offer a seminar or workshop on their chosen topic.

Western and Afghan languages search-engines provide an excellent starting point for anyone searching the ACKU collection or for other research materials. If the reader wishes to consult material from the ACKU Library or Archive, they can ask the attendant in the Reading Room who will bring them what they require. Personal lockers and photocopying facilities are available. ACKU is committed to ensuring that wheelchair users are able to take full advantage of our facilities and we have internal and external ramps.
